And
now some words
from the team bc

...Holy shit, I'm really gonna miss this project, it was one of my favourites to typeset... And we only picked it up because I'm overly excited for this author TT in the end I loved both characters, the pacing, and the story. I'm amazed at how well we got to understand these characters.

I hope we get to do more works from Torino, and that she makes more BL or (LGBT) josei in the future. I highly recommend heading over to cd.japan.co.jp to check out her other works! Asterisk isn't a purchasable volume yet, but who knows for the future-

-qkawa

Mature, warm, slow burning, like second chances after both characters learn something about themselves.

-madamesyaoi

I was very impressed with Torino's Chana Holoholo so when I heard from qkawa that she was doing BL, I agreed to translate it- I wasn't sure at first where the story would go but damn I was surprised at how much of a loop it took me for. By the end of chapter 3 and 4, I was left heartbroken. I'll gladly translate any story she'll do.

Thank you very much for picking up "Asterisk" As Torne, I've published 11 books, but this is the first BL I've done. Not just BL, but it was also the first time I've done a couple romance, so I became lost while working on it many times. I somehow managed to finish it, though. Thank you to everyone who's looked over it during serialization. For the readers who are picking up this volume for the first time, thank you for coming along.
